

CISC 3140

I logged into my unix and immediately went to test the creation of a text editor

I messed around with unix as instructed and tried to familiarize myself with some commands however I did some commands that got me a little scared because I was lost and wasn't too sure what was going on for example I am not sure while I created my samplefile test I'm not sure what is in the other 2 files on my unix.

The screenshot shows an SSH Secure Shell window titled "146.245.252.28 - Dung - SSH Secure Shell". The window has a menu bar with "File", "Edit", "View", "Window", and "Help". Below the menu bar is a toolbar with icons for "Quick Connect" and "Profiles". The main area is a terminal window with the following output:

```
~
"samplefile" 3L, 247C written
[ddoan@sol28 ~]$ pwd
/users1/st/ddoan
[ddoan@sol28 ~]$ ls
MyCalendars public_html samplefile
[ddoan@sol28 ~]$ whoami
ddoan
[ddoan@sol28 ~]$ pw-u ddoan
bash: pw-u: command not found...
[ddoan@sol28 ~]$ ps -u ddoan
  PID TTY          TIME CMD
 19690 ?        00:00:00 sshd
 19693 pts/0    00:00:00 bash
 20130 pts/0    00:00:00 ps
[ddoan@sol28 ~]$ more MyCalendars
MyCalendars: No such file or directory
[ddoan@sol28 ~]$ ls -l
total 12
drwxr-xr-x. 2 ddoan cis 4096 Sep  6  2019 MyCalendars
drwxr-xr-x. 2 ddoan cis 4096 Sep  6  2019 public_html
-rw-r--r--. 1 ddoan cis  247 Mar  7 17:25 samplefile
[ddoan@sol28 ~]$ ls -a
. .bash_history .bashrc .config .lessht .oracle_jre_usage samplefile
```
